

THE DESIGN:

Pre-construction services include determining your needs and wants, establishing a realistic budget, producing renderings/drawings, and turning your vision into a reality. We do it all - from style, colors, fixtures, treatments, patterns, space planning, and fabrics.

THE TEAM

Our experienced group of dedicated craftsmen are highly organized and maintain the highest standards during the construction process. With over three decades of experience building new houses, we build your dream home.

THE BUILD

We build your custom dream home from the ground up. We are a custom "build on your lot" builder. Whether you need our team to manage one stage of construction or the entire project, we can make your vision a reality.

ABOUT US

As an industry leader across southeast Louisiana for more than three decades,

J. Walker Construction General Contracting Services was founded by Jordan Walker Sr., whose passion about excellence in construction remains the foundation of our company today.

HOW WE ARE DIFFERENT

- We are dedicated to using innovative materials and technology, building smarter, more efficient homes.
- We believe in communication! Our professional team of craftsmen will walk you through the process from conception to reality.
- We deliver a high-quality solution at a competitive price. How? By remaining efficient, organized, and knowledgeable.
- Our goal is to foster long-term relationships with each client. We want to be your first call and your only referral.

We Build Your Dreams

OUR SERVICES

FROM DESIGN TO DONE

J. Walker Construction is a full-service, state license and insured construction company specializing in custom home building, major residential renovations, additions, and commercial projects.

OUR PERFECT CUSTOMER

Our design to build services support clients needing architectural, engineering, and interior design solutions.

"WOW" FACTOR

We believe that when people see your home or building they should say "wow!" When you partner with J. Walker Construction, owner satisfaction from the design phase to completion is important to us.
